Title: Channel Fine/Coarse Tuning
RP#: _____

Related item(s): MIDI 1.0 Detailed Specification, Master Fine/Coarse Tuning C/A

Abstract:

Renames the current "Master Tuning" Registered Parameter Number (RPN) 01- Fine Tuning and RPN 02 - Coarse Tuning referenced on page 18 of the MIDI 1.0 Detailed Specification v 4.2 to "Channel Tuning". (RPN 01 – Channel Fine Tuning and RPN 02 – Channel Coarse Tuning)

Background:

With the approval of TSB Item # 151, Master Fine/Coarse Tuning, there arose a naming conflict with the existing RPN in the MIDI 1.0 Detailed Specification called Master Tuning. The original message is by definition channel based which supports renaming the messages "Channel Fine Tuning" and "Channel Coarse Tuning" under the heading of Channel Tuning.

Details:

Change current and future versions of the MIDI 1.0 Detailed Specification to reflect the new name for RPN 01 to "Channel Fine Tuning" and RPN 02 to "Channel Coarse Tuning" under the renamed heading of "Channel Tuning". (See page 18 of the MIDI 1.0 Detailed Specification v 4.2) Also change Table IIIa, Registered Parameter Numbers, to 01-"Channel Fine Tuning" and 02-"Channel Coarse Tuning".
